Launched by JBF Technology, is a full portfolio of solutions composed of project-oriented products including IPC, NVR, PTZ, XVR, Thermal and software platform which adopts industry-leading deep learning algorithms. Focusing on customer's requirements, provides precise, reliable and comprehensive AI solutions for verticals.

Series Overview

With starlight solution and deep learning algorithm, JBF Series network camera has various intelligent functions, including face capture, perimeter protection and people counting, which greatly improve the accuracy of video analysis. The series camera supports dust-proof function, waterproof function and vandal-proof function, com-plying with the standards of IP67 and IK10 (Supported by some select models).

Functions

Face Detection
JBF Face Detection technology can detect the face in the image. With deep learning algorithm, the technology supports detecting, track-ing, capturing and selecting the best face image, and then outputs face snapshot.

People Counting
With deep learning algorithm, JBF People Counting technology can track and process moving human body targets to realize the accurate statistics of enter No., leave No., and In Area No. Working with manage-ment platform, it outputs reports to meet your requirements.

Smart H.265+ & Smart H.264+
With advanced scene-adaptive rate control algorithm, JBF smart encoding technology realizes the higher encoding efficiency than H.265 and H.264, provides high-quality video, and reduces the cost of storage and transmission.

- 8MP, 1/1.8" CMOS image sensor, low illuminance, high image definition
- Max outputs 8MP (3840× 2160)@25fps/30fps
- H.264&H.265coding, highcompressionration
- Wide dynamic, day/night, 3D NR, AWB, HLC, BLC
- ROI, SVC, SMART H.264+/H.265+
- With deep learning algorithm, it supports people counting, face detection, perimeter protection etc
- Alarm: 3 in, 2 out; audio: 1 in, 1 out; RS-485; BNC; supports max. 256 G SD card (encryption AES128 or AES256)
- IP Address locking system, after several (customizable) number of wrong access
- Micro SD memory (encryption AES128 or AES256)
- User access log cannot be deleted by reset
- Request function to create or change password at first login
- 24V AC/12V DC/PoE power supply (the power ports are different depending on the power supply)
- Three streams for two-channel HD video
- IP67, IK10 protection grade
- Anti-corrosion coating(optional)
- 12V DC power output, max. current 165mA , easy for installation

ePoE
JBF ePoE technology provides a new way to accomplish long distance transmission between IP camera and network switch. It allows more flexible surveillance system design, improves reliability and saves con-struction and wiring cost.

Cyber Security
JBF network camera is equipped with a series of key security tech-nologies, such as security authentication and authorization, access con-trol, trusted protection, encrypted transmission, and encrypted storage, which improve its security defense and data protection, and prevent malicious programs from invading the device.

Perimeter Protection
With deep learning algorithm, JBF Perimeter Protection technology can recognize human and vehicle accurately. In restricted area (such as pedestrian area and vehicle area), the false alarms of intelligent detec-tion based on target type (such as tripwire, intrusion, fast moving, park-ing detection, loitering detection and gathering detection) are largely reduced.
