

UTP CAT.6 PATCH PANEL 24 PORT

Our Category 6 patch panel range exceeds the transmission line performance requirements of IEC and TIA for CLASS E/Category 6 systems. The products are designed for mechanical and electrical reliability, using quality materials and processes, to create a panel solution which delivers a consistent high level of systems performance, whilst affording the installer a time saving advantage. Each Category 6 patch panels comply with the requirements of ISO/IEC 11801 (2nd Edition): 2010 and support all applications designed for CLASS E/Category 6 applications including ATM 1200, 1000BASE-T (Gigabit Ethernet) and 1G FCBASE-T.

FEATURES

- 19" rack mountable
- 6 - port RJ45 modules
- Universal wiring blocks for easy termination
- Colour coded wiring blocks for easy cable lacing
- Integral label feature
- Individual port identification
- Rear cable management bar
- Durability:
 - Socket Contacts: 750 plug insertion cycles minimum
 - Earthing kit and cage nuts included as standard
- Earthing kit and cage nuts included as standard

APPLICATIONS

- Class E/category 6 standards compliant
- Terminates 22AWG to 26AWG cables

STANDARDS COMPLIANCE

- Electrically compliant beyond 250MHz
- Supports TIA 568 A & B wiring configurations
- REACH / SvHC compliant regulation (EC) No. 1907/2006
